COVID-19 (2019 Novel Coronavirus) Summary
(Preliminary Numbers, Subject to Change)

Updated 5/7/2020

Kansas Department of Health and Environment

- There were 6,144 (6,082 confirmed and 62 probable) cases from 82 counties with 147 deaths reported as of 9 a.m.
- There have been 587 of 3,939 cases that have been hospitalized.
- There have been 38,678 negative tests conducted at KDHE and private labs.
- Age range is 0 years to 100 years (median 42 years)
- There have been 2,590 positive tests at KHEL and 3,492 at private labs.
- 2,608 cases are female and 3,438 are male and 98 unknown.

Please note, today we are beginning to include probable cases. Probable cases are determined through local health departments' investigations of confirmed cases and are defined as:

- *Presumptive laboratory evidence (serology) with compatible symptoms or epi-linked to confirmed case,* ***OR***
- *No laboratory testing for COVID-19 in a person with COVID-19 compatible symptoms and epi-linked to a confirmed case*

COVID-19 (2019 Novel Coronavirus) Quick Stats (Preliminary Numbers, Subject to Change)

Updated 4/30/2020

Kansas Department of Health and Environment

- There were 4,238 cases from 80 counties with 129 deaths reported as of 9 a.m.
- There have been 523 of 3,034 cases that have been hospitalized.
- There have been 27,388 negative tests conducted at KDHE and private labs.
- Age range is 0 years to 99 years (median 46 years)
- There have been 1,475 positive tests at KHEL and 2,763 at private labs.
- 1,962 cases are female and 2,234 are male and 42 unknown.

Today's increase is due to delays in report entry from some communities and positives found at Lansing Correctional Facility. For more information on LCF, please refer to the Kansas Department of Corrections.

Total	**2,777**

- There were 2,482 cases from 74 counties with 112 deaths reported as of 9:45 a.m.
- There have been 442 of 2,007 cases that have been hospitalized.
- There have been 18,836 negative tests conducted at KDHE and private labs.
- Age range is 0 years to 99 years (median 50 years)
- There have been 569 positive tests at KHEL and 1,913 at private labs.
- 1,246 cases are female and 1,277 are male and 9 unknown.

We also anticipate seeing an increase in the next several days for areas in Western Kansas due to the new testing strategies implemented. There may be delays with those county numbers being reflected in KDHE's total due to the additional time it's taking to enter the lab reports.

COVID-19 (2019 Novel Coronavirus) Quick Stats (Preliminary Numbers, Subject to Change)

Updated 4/22/2020

Kansas Department of Health and Environment

- There were 2,211 cases from 70 counties with 110 deaths reported as of 11 a.m.
- There have been 432 of 1,816 cases that have been hospitalized.
- There have been 17,992 negative tests conducted at KDHE and private labs.
- Age range is 0 years to 99 years (median 50 years)
- There have been 496 positive tests at KHEL and 1,715 at private labs.
- 1,116 cases are female and 1,088 are male and 7 unknown.

Please note, there has been a significant increase today due to KDHE not receiving lab reports from a private lab, which affected Lyon County numbers, along with several other counties. We also anticipate seeing an increase in the next several days for areas in Western Kansas due to the new testing strategies implemented. There may be delays with those county numbers being reflected in KDHE's total due to the additional time it's taking to enter the lab reports.

Total	**2,211**

- There were 2,025 cases from 69 counties with 107 deaths reported as of 11 a.m.
- There have been 419 of 1,684 cases that have been hospitalized.
- There have been 17,076 negative tests conducted at KDHE and private labs.
- Age range is 0 years to 99 years (median 51 years)
- There have been 456 positive tests at KHEL and 1,569 at private labs.
- 1,042 cases are female and 979 are male and 4 unknown.

* Please note KDHE was not receiving lab reports from a private lab which has caused our numbers for Lyon County to be inconsistent with what Lyon County is reporting. This is being corrected and numbers should be consistent beginning April 22.

COVID-19

March 6, 2020 Public Update

Situation Overview

KDHE continues to closely monitor an outbreak of a respiratory illness caused by a novel coronavirus named coronavirus disease 2019 (COVID–19). The outbreak first started in Wuhan, China, but cases have been identified around the world including in the United States. The first case in the United States was announced January 21, 2020. As of 4:30 p.m. on March 6, Kansas currently has no confirmed cases of the 2019 Novel Coronavirus and two persons currently under investigation (PUI). Eleven previous PUIs have tested negative for COVID-19. State health officials continue to work with CDC and other health agencies to learn more about this virus.

KDHE Response Activities

- The Kansas Health and Environmental Laboratories (KHEL) remains ready to test with the CDC/ FDA-authorized Emergency Use Authorization (EUA) kits. At this point, KHEL has adequate capacity to support the needs of Kansas.
- KDHE has created a toolkit of Kansas-specific guidance to help local public health departments engage with their community partners on COVID-19 planning. It can be found on the KDHE website: www.kdheks.gov/coronavirus. New information is added daily.
- KDHE has a phone-bank operation that is staffed during regular business hours through March 13. The phone number is **1-866-534-3463** (1-866-KDHEINF).
- KDHE also has an email address for general inquiries, COVID-19@ks.gov.

COVID-19

March 5, 2020 Public Update

Situation Overview

KDHE continues to closely monitoring an outbreak of a respiratory illness caused by a novel coronavirus named coronavirus disease 2019 (COVID–19). The outbreak first started in Wuhan, China, but cases have been identified around the world including in the United States. The first case in the United States was announced January 21, 2020. Kansas currently has no confirmed cases of the 2019 Novel Coronavirus and one persons currently under investigation (PUI). Five previous PUIs have tested negative for COVID-19. State health officials continue to work with CDC and other health agencies to learn more about this virus.
